

CARBOHYDRATE/CONTACT REPORT

24 June 1955

Date, Time, and Place of Meeting: 1900-2200, 23 June 1955, CARBO's Apt.

Present: a. CARBOHYDRATE b. []

1. After the usual amenities, the following points were covered:

a. KAISER—CARBO had discussed the case with Henard. The latter was not familiar with the precise provisions of procedure involved in a possible quashing of the case, had asked Ladell who agreed with CARBO that it was too late to quash the case. Possible grounds for quashing are:

1. Lack of evidence. But there is no lack here. The letter which Kaiser wrote is all too clear.
2. Extenuating circumstances. There are such here. But examination shows these can be shown only if the case is tried, not if it is quashed. They are not really grounds for quashing, therefore. To use them, Kaiser would have to appear in court, etc.
3. A fix. But too many people know about the case, too much has been put on paper, too many formal actions have been taken to fix it at this stage of the game. If it could have been fixed, it would have been fixed by now.

Henard and Ladell thus agree Kaiser should appear ~~in~~ notify the court soonest and use the defenses which are ~~available~~ available. Henard agreed CADROIT should be connected openly as little as possible with the defense. He knew of no better lawyer than Yersin. It was therefore tentatively agreed with CARBO that Yersin would be ~~immediately~~ retained as earlier discussed, but CARBO should not approach him until given further word. Yersin will be traced.

2/ b. CARBO confirmed []'s understanding re the Weidner case that there is no one named Wendel in the CADROIT staff. He will check for any other sort of CADROIT connection.

c. Pepin gave CARBO the Stars and Stripes article re the Tägliche Rundschau to CARBO for check as to whether CADROIT was the source of all of the statistics therein, and whether there is any more info available. For Rocky.

d. Re Vogel, CARBO had discussed with Henard the plan whereby she would be called in to CADROIT by a letter written by CARBO/Wels and then referred to CALCINO. Henard had spoken with Wels, who informed him there was little chance that she would be sent to CALCINO, that her importance to the SFS is confined to the Berliner Ensemble, a low priority affair. Pursuant to discussion with Henard, therefore, CARBO will take no further action in the case.

CENTRAL INTELLIGENCE AGENCY
SOURCES METHOD EXEMPTION 3B2B
NAZI WAR CRIMES DISCLOSURE ACT
DATE 2008

24 June 55

2. The rest of the meeting was spent in more general discussion of CARBO's position with CADROIT, his morale, his duties, etc. CARBO noted in answer to queries that he felt that his time was now spent largely on real security matters, as it should be, and not on "Jack of all trades/organizational" matters. (CARBO had complained in Oct-Nov 54 that he rarely had time to get to real security matters since he was constantly called upon to take care of other matters). [] noted his ~~unhappiness~~ gratification at this situation, and in answer to queries by [] the following ~~unhappiness~~ rough outline of CARBO's duties was worked out:

1. CADROIT Security (General)

a. Outside or external security

- (1) Buildings
- (2) Approaches (streets leading from S-Bahn stations, Spitzels observing such approaches, etc.)
- (3) Mitarbeiter advising in connection with external security

b. Internal Security

- (1) Personnel/SFS approaches, recruitment attempts, etc.
- (2) Mitarbeiter/Spitzelabwehr, i.e., find the Spitzel among the MA and deal with them
- (3) Visitors/Spitzelabwehr, i.e., check out visitors whom a staffer thinks might be working for the East. This takes much of CARBO's time attending meetings at request of other staffers.

c. Investigation of Arrests, of both Mitarbeiter and visitor. In the last category come cases where a relative visits CADROIT, states the arrestee had once visited CADROIT and had later been arrested. CARBO attempts determine cause.

2. Security/East.

- a. Arranging escape routes. (Case: visitor residing in DDR w/o Ausweis five years, wants to flee to W. Berlin. How can he get to East Berlin in order to take S-Bahn to W. Berlin? CARBO works out an escape route-used to use info from MA-~~xxx~~ 100 re police patrol routes this purpose)
- b. Advising Spitzelverpflichtete. Exception: This is done now by Ohlsen under CARBO's general supervision.
- c. Answering questions from German authorities re SFS, other eastern security matters.

3. Security/West.

- a. Preparation of opinions ~~from~~ re recognition applications of former VOPO and SSD officials. Answering requests for info re VOPO and SFS.

3. [] noted that although the security checkup sheets had been submitted completely ~~ff~~ once earlier, ~~xxxx~~ no forms had been submitted recently. The original plan had been to submit forms for each CADROIT room once a month. Since this would involve considerable paper war to catch the few real changes in East which had taken (and, not stated to CARBO, since the monthly scheme had not worked out well due to shortage of secretarial help, etc.) [] arranged that the forms will be submitted on a quarterly basis. (Baker to have them on a quarterly basis than to have a ~~just~~ for monthly submission remain unimplemented.)

4. CARBO noted that he had an opportunity to purchase an old 1936 DKW at a very cheap price (750 DM). A typical old two cylinder fourseater. He could get a loan ~~xxxxxxxxxxxx~~ on very good and long terms (DM 35/mo.) He queried [] whether he should approach HENARD for a small raise or not, was not sure of whom he should approach. [] instructed not to approach Henard for the time being. ~~xxxxxxxxxxxx~~ Although CARBO's salary ~~xxxxxxxxxxxx~~ was paid by CADROIT (DM 700) and Henard (150), [] wanted to review the situation before CARBO took any action. COMMENT: It was much earlier agreed in principle that KUBARK would provide a car for ~~xxxxxxxxxxxx~~ CARBO for security reasons. No car was actually procured ~~xxxxxx~~ for technical reasons. [] has not pushed the idea recently. However, since CARBO's salary appears to him to come entirely from Henard now, it might very well bear a very worthwhile investment for us to provide the car against deed of trust. This would avoid ~~xxxxxxxxxxxx~~ the possible appearance of Spitzel activity on CARBO's part in Henard's eyes which might be associated with direct KUBARK payment to him of part of his salary, while ~~xxxxxxxxxxxx~~ it would in CARBO's own mind differentiate him from the rest of the CADROIT Referenten. ~~xxxxxxxxxxxx~~ The cost is comparatively quite cheap, and the security factors involved are quite real. For review and recommendation.
